EXPERIENCE

Freelance Front-end Developer

May 2022 - Present

Espacio Manila

- Developed a catalog website for an art gallery, focusing on delivering user-friendly experience for visitors.
- Modified a WordPress theme using Custom Post Type UI & Advanced Custom Fields plugin, allowing for flexible content management and customization options.
- Ensured website security by implementing appropriate measures and regularly managing backups to safeguard data and minimize potential risks.

Freelance Front-end Developer

Dec 2021 - April 2022

Brunchmate

- Communicated with clients regarding design, structure, and other requirements of the website.
- Created an ecommerce website from scratch, incorporating client's specifications and industry best practices, using WordPress, PHP, HTML, CSS, and JavaScript.
- Customized themes and plugins to tailor the website's functionality to match client expectations.
- Improved website load time by 54% and page size by 40% by optimizing images and minifying code for a website built with HTML, CSS, and JavaScript
- Trained clients on how to use the website's dashboard, enabling them to independently manage and update their own website

Front End Developer

Jan 2021 - May 2021

Oost&Voort Inc.

- Developed a responsive web app with a modern and user-friendly user interface within a team of 2 developers.
- Built a dashboard using vanilla JavaScript to present an overview of the metrics for monitoring and analysis purposes, enabling effective decision-making.
- Interacted directly with clients to deliver tailored solutions that met their specific needs, by understanding their requirements and receiving instructions.
- Collaborate with UI designer and translate design mockups into pixel-perfect and responsive websites by using HTML, CSS, and Javascript

Front End Developer

Jun 2017 - Mar 2020

Transcosmos Asia Philippines

- Developed pixel-perfect and responsive websites for multiple clients by translating design mockups.
- Created a cross-browser compatible web-app by using W3C standards and testing across all major browsers with no loss of functionality.
- Optimized performance of web pages, reducing loading time by an average of 23%, increasing user engagement and website usability.
- Collaborated with senior and junior developers to deliver features to production, improving the team's performance by 10%
- Proactively debugged and resolved website-related issues, ensuring smooth user experience and client satisfaction.

EDUCATION

BS Computer Science

April 2017

University Of Perpetual Help System DALTA
