EXPERIENCE

Freelance Front-end Developer

May 2022 - Present

Espacio Manila

- Developed a catalog website for an art gallery, focusing on delivering user-friendly experience for visitors.
- Modified a WordPress theme using Custom Post Type UI & Advanced Custom Fields plugin, allowing for flexible content management and customization options.
- Ensured website security by implementing appropriate measures and regularly managing backups to safeguard data and minimize potential risks.

Freelance Front-end Developer

Dec 2021 - April 2022

Brunchmate

- Discussed design and structure of the website with clients in-person, ensuring clear communication and understanding of their requirements.
- Built and designed an e-commerce website from scratch, incorporating client's specifications and industry best practices.
- Customized themes and plugins to tailor the website's functionality.
- Conducted website performance tests and optimization
- Provided training to clients on how to use the website's dashboard, enabling them to independently manage and update their own website.

Front End Developer

Jan 2021 - May 2021

Oost&Voort Inc.

- Collaborated in developing the web app, ensuring a modern and user-friendly user interface was created.
- Built a dashboard using vanilla JavaScript to present an overview of data for monitoring and analysis purposes, enabling effective decision-making.
- Interacted directly with clients, understanding their requirements and receiving instructions to deliver tailored solutions that met their specific needs.

Front End Developer

Jun 2017 - Mar 2020

Transcosmos Asia Philippines

- Translated design mockups into pixel-perfect and responsive websites.
- Actively contributed to website maintenance and updates, bug fixes, and feature enhancements.
- Ensured cross-browser compatibility and resolved compatibility issues, providing a consistent experience for users across different browsers.
- Collaborated closely with senior developers and other team members to ensure the timely delivery of high-quality websites, meeting project milestones effectively.
